

CERD

Norms for providing incentive for technical Journal Publication

This scheme envisages promotion of research activity by providing incentive for publishing technical papers in peer reviewed journals to faculty members of government and aided engineering colleges. The maximum assistance under this scheme is `10,000/- for the papers published on or after 25.6.2013. The application form for assistance may be submitted to the Director, CERD in the prescribed format through Satellite Centre along with copy of paper published and the copy of the Review reports of the journal.

The following guidelines are used for the sanctioning of incentive.

1. The paper should be published in a peer reviewed journal. Copy of Review reports has to be enclosed along with application.
2. The copy of the paper published in the journal should be accompanied along with application.
3. Proof of document for the impact factor, if any for the journal should be accompanied.
4. An incentive of `5000/- will be provided for the papers published in journals before 25.06.2013 having impact factor greater than 0.25.
5. For the papers published before 25.6.2013, the proof of impact factor is compulsory.
